1 Introduction

Mustung district education sector plan flows from the provincial Balochistan Education Sector Plan (BESP). Many of the strategies in the document derive from the BESP but have been adjusted according to the needs of the district and its position, and limitations, in the governance structure. The aspects of access, equity, quality and governance and management have all been covered.

It appears that district options get most limited in case of quality as most quality related supply institutions are at the provincial level. However, the sector plan emphasizes the need for the district to get more involved, and proactive, approach. Also they need to take more responsibility for quality of the teaching and learning process.

Mustung district faces a number of education related challenges in terms of access and quality both. Article 25A of the Constitution of the Islamic Republic of Pakistan has been made the basis of the targets faced by the district. BESP also used the same framework for the provincial indicators. The Article stipulates free and compulsory education for children between ages 5 to 16 as a fundamental right. The Constitution allows each province to prepare its own law for implementation. Government of Balochistan has already passed 'The Right to Free and Compulsory Education Act 2014'. This Act makes the government responsible for bearing all the education-related costs inclusive of stationery, schoolbags, school meals and transport for the children falling in the aforementioned age group. This bill further stipulates that free and compulsory education is imparted to every child regardless of sex, nationality or race in a neighborhood school.

Table 1.1: Indicators Framework

| Indicator | Current (%) | Target |
|-------------------------------------|-------------|--------|
| NER Primary | 84 | ≈ 100 |
| NER Middle | 45 | ≈ 100 |
| NER Secondary | 22 | ≈ 100 |
| Survival Rate Primary | 47 | ≈ 100 |
| Survival Rate Middle | 77 | ≈ 100 |
| Survival Rate Secondary | 99 | ≈ 100 |
| Transition Rate Katchi to Primary | 73 | ≈ 100 |
| Transition Rate Primary to Middle | 92 | ≈ 100 |
| Transition Rate Middle to Secondary | 87 | ≈ 100 |

Table 1.1 shows the set of indicators for Article 25 A, or more directly, the 'Compulsory Education Act 2014. These cover a wide array. It can be seen that the results cannot be achieved with a focus on access alone. Quality of education will need to be improved to

ensure better survival rates and also increased effort is required in quality early childhood education.

BESP has already indicated this and a provincial policy on ECE has been made. These need to be implemented.

The Mustung District Education Sector Plan is cognizant of the horizontal and vertical relationships across the various strategies. Where required, these linkages have been mentioned in the sector plan. In addition to the chapter on methodology and implementation, which follows this one, access and equity, quality and governance and management have been covered.

Each chapter discusses the situation and the problem and is followed by a set of objectives and strategies for improvement.

2 Methodology & Process

The exercise was drawn on experience gained in the past through the preparation of district EFA plans, as well as Early Childhood Education (ECE) Provincial Plans. Additionally information was gleaned from other sources and a widespread consultative process was launched in each district.

2.1 Methodology

Methodology adopted for development of district education sector plans was a blend of desk research and field consultations with relevant stakeholders and key informants.

2.1.1.1.1 Desk Research

Desk review involved consulting the BESP, Provincial Education Sector Analysis, District EFA Plans, ECE Policy, District ECE Plans, BEMIS, District budgets (3 to 5 years), population projections, Economic Survey and ASER reports and any other relevant study.

2.1.2 Consultations

It involved qualitative interviews with district officials and relevant stakeholders. The questionnaire for qualitative in-depth interviews were developed on the issues around economic endowments of the districts, linguistic issues, rural and urban divide, gender issues and qualitative issues in education, specific to the district. The consultations helped develop district level priorities. Education providers from private sector and senior educationists in the district were also consulted.

2.1.3 Stakeholders Involvement

Stakeholders involved throughout the processes for development of district plans to gain their commitment. District Education Authorities/Managers, school level personnel, community, district administration, political leadership, PPIU, DOS, CSOs working at district level and other relevant stakeholders regularly involved through consultations. The support from these stakeholders was very crucial for the success of this exercise. Specifically there were initial meetings with district education officials to explain the concept and process, sharing of identified strategies and targets with DOS, PPIU and also districts and divisional officers for their feedback after the prioritization of strategies and target areas and finally before finalization of district plans, the initial drafts will be shared with relevant stakeholders.

2.2 Process for DEPs Development:

A three step process was followed for the development of district plans. At the first step sector analysis was conducted followed by identification and prioritization of strategies (picked from within BESP) for the districts. District plans were developed using these strategies.

2.2.1 Sector Analysis:

Education sector analysis was conducted for each district. Following set of indicators related to access and quality were proposed for sector analysis.

| Access |
|-------------------------------------|
| Out of school children |
| School Availability Gap |
| Net Intake Rate (Primary) |
| Net Enrolment Rate Gap |
| GPI (GER) & GPI (NER) |
| |
| Quality |
| Teachers |
| Students Teachers Ratio |
| (Male & Female at School Level) |
| Survival and Completion Rate |
| Textbook Dissemination and Feedback |
| Assessment / Learning Outcomes |
| |

Non salary financial allocations, school environment, poverty and opportunity costs was also used as indicators, apart from the indicators in the above table.

District profiles were developed at the outset covering districts specific contexts related to socio-economic and ethno linguistic issues, demographics, sources of income. Year, gender and age wise population projections were made. Budgetary allocations to Primary, Middle, High, Higher Secondary schools and Elementary Colleges were analyzed for past 5 years. Education performance was analyzed in terms of access, quality of learning, governance and management and equity to determine the internal efficiency of education system performance of each district. Data analysis

were also part of this exercise to see the trends in key education indicators as mentioned in the above table. Information from Elementary Colleges was also gathered and analyzed. Gender gaps were also analyzed in the process. Information gaps, if identified during the sector analysis, entailed development of strategy for filling these gaps. Estimates were used for sector analysis where there is any information gap and data cannot be obtained.

2.2.2 Identification and Prioritization of Strategies:

Key strategies were identified based on the sector analysis of the districts. Strategies were not devised ab initio rather, as already mentioned, these were taken from the Balochistan Education Sector Plan. The broad priorities, strategies identified in BESP were translated in terms of district level strategies and targets for quality, access, governance and management and equity as applicable, based on the sector analysis results.

2.2.3 Finalization of District Plans:

Based on the identification and prioritization of strategies detailed action plans (Result Matrix and Implementation Matrix) for the districts were developed with each plan spread over five years. The district plans included specific actions for each prioritized area and target, indicators for implementation and monitoring, a steering and management structure at district level along with reporting mechanism for both the district and provincial levels. Costing of the district plans will be carried out using the population projections of the respective districts and financial model of the Balochistan Education Sector Plan.

3 Mustung District Profile

Mastung used to be a sub-division of Kalat district. Due to administrative reasons, it was separated from Kalat in July 1991 and was given the status of a district. From 18 February 1992 Mastung has functioned as a separate district. The district derives its name from the locality of Mastung. According to locals "Mastung" is made up of two words Mas and Tung. In Brahvi language Mas means mountain and Tung means hole. The major ethnic tribes of the area are Brahui (Tribes: Shahwani, Raisani, Bagulzai, Lehri, Kurd), Dehwar (Tribes: Khwajakhail. Alizai, Mandozai), Pashtoon (Tribes: Babri, Tareen, Yousafzai) (District Profile Balochistan-2011). Major language is Dehwari, a dialect of Persian, Urdu and Brahvi. The district Mastung consists of two sub-divisions: Mastung and Kardgap. There are four tehsils: Mastung, Dasht, Kardgap and Khad Kucha. The district is divided into 13 Patwar circles and 280 Muzas. The area is mountainous, barren and has rugged terrain with ground elevation varying from 934 - 3414 meters above Mean Sea Level. The district is spread over an area of 5,896 square kilometers.

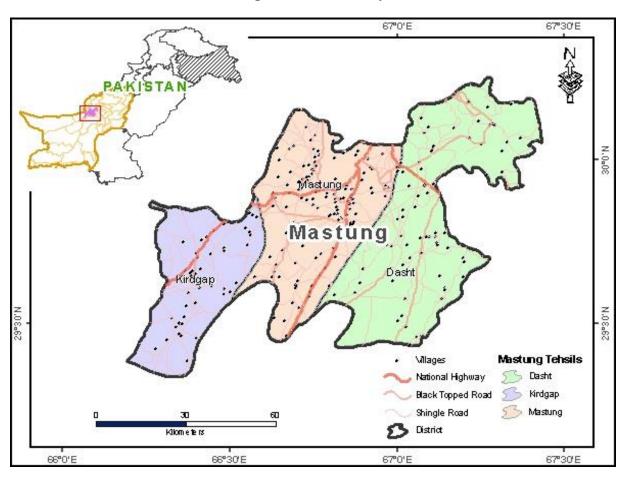

Figure 3.1: District Map

Administratively the district has been divided into three tehsils of Dasht, Kirdgap and Mastung. The four tehsils are further divided into 13 union councils.

Table 3.1: Tehils of District Mustung

3.1 Population

According to the 1998 census the total population of the district was 165,000 which included 88,118 Males (53%) and 76,882 Females (47%). With the annual growth rate of 1.31%¹ the projected population of the district in 2015 is estimated around 206 thousands in which males would bearound 110 thousands (53%) and females about 96 thousands (47%). The average household size was 8 persons per household according to the Censuses of 1998. In 1998, approximately 28 people resided per square kilometer area, whereas in 2010 only about 33 persons lived per square kilometer². Population density in the district, though higher as compared to other districts in the province but is still low when compared to other provinces in Pakistan.

Table 3.2: District Population

| Population | | | | | | | | | | |
|-------------------------------|---------|---------|---------|---------|---------|---------|--|--|--|--|

3.2 Economic Endowments

Mastung falls in the tropical agro-ecological zone bearing a total potential agricultural area of 255,208 hectares (Agriculture Statistics, 2008-09), which is approximately 37% of the total geographical area of District Mastung. Amongst major Rabi crops, Wheat occupied the maximum area of 5,995 hectares, this is 82.4% of the total area (7,277 hectares) followed by Cumin having shared 8.4% of the area. Under the area of major Kharif crops fruits occupied the maximum area of 14,554 hectares which is 83.2% of the total area (17,500 hectares) followed by Onion having shared 11.5% of the area. In District Mastung, the highest reported population among all the ruminants was that of sheep (467 thousand, Livestock Census, 2006). 97.7% of the livestock population comprises small ruminants. Small livestock farmer usually have herd size up to 5-7small ruminants, which are raised mostly in un-irrigated areas, where rangeland provides pasture. The district has a limited area under forest and the type of forest found in the district is Balochistan Dry Temperate Scrubs (steppe) Forest. A small area has been conserved as State Forest and Wildlife Protected Area. Overall natural vegetation, including shrubs, bushes and grasses can be aptly termed as potential rangelands which support a good number of livestock. District Mastung, the iron ore and fluorite deposits occur in Dilband area. The oldest formation in the area is the Chiltan Limestone, in which fluorite is deposited in the shape of small veins, irregular pods, pockets and along beds. Iron stone bed, in the district, has long been known as Bauxite deposit

3.3 Poverty & Child Labor:

Due to the agrarian nature of the district, children are much involved in agricultural activities of their families. However, according to the district development profile only a few cases of child labour have been observed with children working in private enterprises like motor cycle repair shops, tailor shops, shoe-maker shops, motor garages, chinaki (teapot) hotels, Tandur or blacksmith shops.

3.4 State of Education

State of Education in district Mustung is not very different from education situation in other districts in Balochistan. Access and quality indicators of the district are very weak. The district suffer from multiple issues in the backdrop of poverty and cultural constraints.

The education sector in the district comprises of public and private schools with varying quality. A total of 366 schools are operated by the public sector which include of primary, middle, high and high secondary schools. 91% percent of these schools are in rural areas and

9% in urban areas. Rural urban breakdown of the public sector schools on the basis of level of education and gender is shown in the table.

Table 3.3: Public Sector Schools

| Public Sector Schools –Mustung | | | | | | | | | | | |

Source: BEMIS

PSLM data shows a low literacy rate in Mustung. It has literacy rate of 41% in 15+ population and 48% in 10+ population. Mustung is ranked low in female literacy with 20% literacy rate of 15+ population and 29% in 10+ population. However, the situation in male literacy is much better when compared with the female literacy. The figures, do not present a good picture when compared to districts in other provinces and region.

Table 3.3: Literacy Rates in the District

| , | | | | | | | | | | |

Source: Various PSLMs

Access and quality of education in the district is not very promising. Low population density leaves a lot of settlements without school and within the existing schools there are enrolment gaps. Missing facilities like water and toilets adversely affects the enrolment and retention. School availability bottleneck that appears at the primary to middle and secondary to higher secondary level further hampers the access situation. Teaching learning quality is a key concern in Mustung district. Annual Status of Education Report 2014 shows poor learning outcomes of the students which leads to the low survival and transition rates. Access and quality of education are discussed in detail in the sections 4 and 6 of the sector plan.

Access & Equity

Enrolment

In 2013, NER at primary level was only 84%, at middle level NER was 45% whereas NER secondary was also quite low at 22% (Table 4.1). Based on the data tabulated (Table 4.1) and presented (Figure 4.1) the net primary, middle and secondary enrolment rates have seen a good increase in the past five years. NER at primary, middle and have seen an increase of 30, 23 and 9 percentage points increase respectively during these years. However, the district is still far behind the target of 100% and the government will need to make drastic changes to improve the rate of increase of NER.

Table 4.1: NER Public Schools

| NER of Primary, Middle and Secondary Education (Public Schools) | | | | | | | | | | |
|---|---|-----|-----|--|--|--|--|--|--|--|
| | Primary (6-10) Middle (11-13) Secondary (14-15) | | | | | | | | | |
| 2004-05 | 54% | 22% | 13% | | | | | | | |
| 2006-07 | 72% | 28% | 15% | | | | | | | |
| 2008-09 | 48% | 13% | 6% | | | | | | | |
| 2010-11 | 82% | 35% | 19% | | | | | | | |
| 2012-13 | 84% | 45% | 22% | | | | | | | |

Source: Various PSLMs

─ Secondary (14-15)

However the NER increase cannot be ensured through access based interventions only. Qualitative improvements, as seen in the following chapter, will also need to be introduced.

Gender Gap in NERs

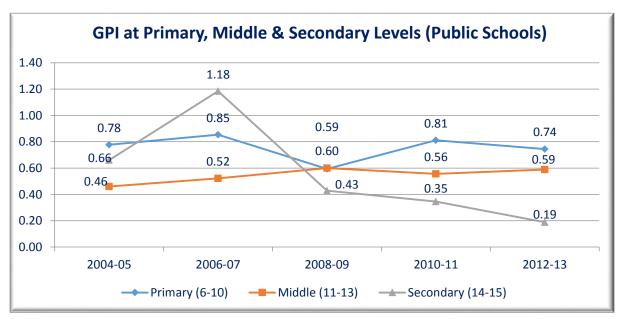

The gender gaps in NER are assessed through calculating Gender Parity Index (GPI). At all levels, since 2005, GPI is heavily in favor of males, except in 2006-06 when GPI was in favor of females at secondary level. The huge gaps reflected in the table 4.2 is a clear indicator that a serious intervention is required in the district to reduce the gender gaps and increase the overall enrolment of both genders.

Table 4.2: GPI (NER) at Primary, Middle and Secondary Levels (Public Schools)

| | Primary (6-10) | Middle (11-13) | Secondary (14-15) |
|---------|----------------|----------------|-------------------|

Out of School Children

The absence of population census since 1998, non-availability of data on age cohorts and growth trends and the inability to factor in the private sector adequately makes it difficult to determine the number of out of school children. For the sector plan the number of out of school children has been calculated on the basis of NER with a 10 percent error margin introduced.

According to the estimates there are approximately 13,324 number of out of school children of age 6 to 15 in the district. This constitute 24% of the total 56,623 children of school going age (6-15).

Table 4.3: Out of School Children Estimates **Out of School Children Estimates** Age 6-10 Age 11-13 Age 14-15 Total **Total Pop** 35,726 7,725 56,623 13,172 **In Public School** 16,311 3,855 1,565 21,731 **In Private Schools** In Madassa **Out of School** 2,144 5,928 5,253 13,324

68% 45% 6% Age 6-10 Age 11-13 Age 14-15

Figure 4.3: Level Wise OOSC Percentage

Level wise 6% of the primary school going age children are out of school. The percentage of out of school children increases at the middle and secondary school level where 45% and 68% are out of school respectively.

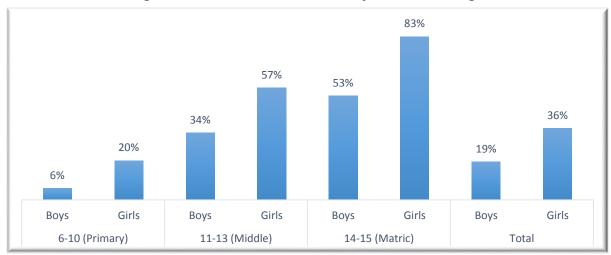

Figure 4.4: Level & Gender Wise Out of School Percentage

Gender wise 19% boys and 36% girls of 6-15 age group are out of school. The figure above shows the out of school children level and gender wise. Around 6% boys and 20% girls of age 6 to 10 are out of school. The percentages increase beyond primary where 57% girls, 34% boys of age 11-13 and 83% girls and 53% boys of age 14-15 are out of school. The date reveals that more boys complete primary, middle and secondary classes.

The out of school children not only include children who never enrolled but also those who drop out of school. Mastung also faces the issue of dropouts at primary and middle level. The survival rate over the last two years has been around 43% at primary level and 74% at middle level. According to 2013-14 BEMIS data, survival rate of girls is 49% at primary level where as it is 46% for boys at primary level.

Figure 4.5: Survival Rate 2013-14

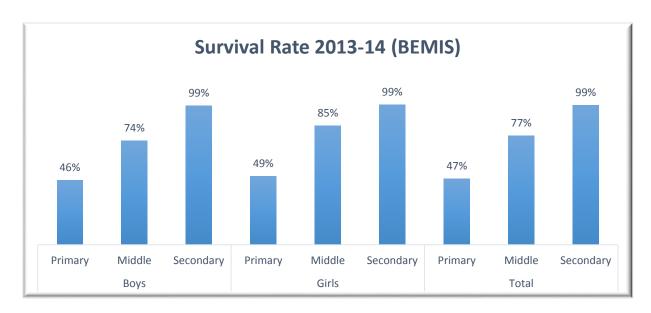

Table 4.4: Survival Rate 2013-14

Sources: BEMIS

The figure 4.6 below provides transition rates from Kachi to primary, primary to middle and middle to secondary. Overall transition rates at all levels have seen a modest increased during the last 5 years. It is 18 percentage points at primary, 10 percentage points at middle and 3 percentage points at secondary level. The upward trends are also reflected in the boys and girls transition rates, separately, at all levels.

4.1 Equity and Inclusiveness

The Glossary of Education Reform lists out several perspectives of equity and inclusiveness; societal, socioeconomic, cultural, familial, staffing, and instructional. The sector plan use these perspectives to analyze equity and inclusiveness in the district. Societal and cultural equity and inclusiveness is linked to the existence of bias and prejudice free society that does not generate any discrimination on the basis of race, ethnicity, language, religion, gender and disabilities. Like other districts in Balochistan marginalization of certain groups exists in the district. In most of the rural areas the common marginalization is of women, which result in the wider gender gaps. There are ethno linguistic differences which impact social cohesion.

The likelihood of familial inequity must be high in the district because of high poverty incidence. Students belonging to unprivileged families having no literate/educated elders in the households or belonging to family units where incidence of violence is high, often remain unable to excel in studies. The district does not seem to suffer from staffing inequity as the schools are having less around 1:20 teacher student ratios however the poor quality of teaching learning process creates instructional and programmatic inequity and affects the student's performance. Instructional and programmatic equity is discussed in detail in the quality section of this plan.

There appears to be limited recognition of the need for the education managers to respond to these needs with reference to schools.

Inclusive education concepts remain imperative to improved educational outcomes but the need has so far not been fully recognized. However, the concepts which have only recently been recognized at the provincial level have not permeated the district education systems and cannot be seen in schools.

4.2 Important Factors

Apart from the existing quality of education and teaching learning process with in class room there are some critical contributing factors to high number of out of school children and unsatisfactory transition rates. These factors are discussed below.

4.2.1 School Availability and Utilization

As true for other parts of Balochistan, Mustung has low population density. As described earlier population density in district Mustung is as low as 28 persons per square kilometer (1998 Census). This situation leaves a lot of settlements without schools as many of these settlements do not qualify to have schools due to their size.

As opposed to 293 primary schools there are only 45 middle and 27 secondary schools while there is only 1 higher secondary school in the district. Overall the ratio of primary to middle is 7:1, for boys it is 8:1 and for girls it is 4:1.

The district has 103 (35%) primary schools with single teacher and 67 primary schools with single room.

| | School Availability | | | | | | | | | | |
|-------|---------------------|--------|-----------|-------------|-------|--|--|--|--|--|--|
| | Primary | Middle | Secondary | H/secondary | Total | | | | | | |
| Boys | 203 | 24 | 12 | 1 | 240 | | | | | | |
| Girls | 90 | 21 | 15 | - | 126 | | | | | | |
| Total | 293 | 45 | 27 | 1 | 366 | | | | | | |

Table 4.6: School Availability

Low utilization of existing schools is another critical factor. The enrolment gaps are huge in certain schools and continue to exist even in populations and settlements with accessible primary schools. The teacher student ratios vary across schools but overall average is low in the district as depicted in the table below.

Table 4.7: Teacher Student Ratio

| | Appointed | d Teacher - Stud | dent Ratio | Sanctioned Teacher - Student Ratio | | | |
|---------|-----------|------------------|-------------|------------------------------------|-------|-------|--|
| | Boys | Girls | Girls Total | | Girls | Total | |
| Primary | 30 | 39 | 33 | 27 | 32 | 29 | |
| Middle | 15 | 16 | 15 | 12 | 8 | 10 | |
| High | 10 | 8 | 9 | 7 | 5 | 6 | |

Source: BEMIS

With schools, especially at middle and higher level, having less than 1:20 ratio, there is a potential to enroll more children in the existing infrastructure. The data shows that the schools are still underutilized.

At primary level the teacher room ratio may be another dimension to analyze the gap in the district. At primary level there are 858 rooms whereas the sanctioned posts are 920 against which 807 are appointed that means still rooms are required to provide classroom to all the teachers.

4.2.2 Missing Facilities and School Environment

Missing and bad conditions of essentially required facilities like water and toilets adversely affects the enrolment and retention. Table below shows a dull picture of facilities available in schools in the district.

Table 4.8: Availability of Facilities in Schools

| | Availability of Facilities in Schools | | | | | | | | | | | |
|--------|---------------------------------------|-------|------|-----|-------|------|---------|-------|------|-------------|-------|------|
| | Boundary Wall Water | | | | | | Toilets | | | Electricity | | |
| | Mal | Femal | Tota | Mal | Femal | Tota | Mal | Femal | Tota | Mal | Femal | Tota |
| | е | е | I | е | е | ı | е | е | ı | е | е | I |
| Primar | | | | | | | | | | | | |
| у | 63% | 73% | 66% | 32% | 7% | 24% | 22% | 52% | 31% | 6% | 12% | 8% |
| Middle | 88% | 100% | 93% | 46% | 57% | 51% | 63% | 90% | 76% | 21% | 33% | 27% |
| High | 92% | 100% | 96% | 67% | 93% | 81% | 75% | 87% | 81% | 67% | 93% | 81% |

Twenty-seven percent of the Girls primary schools are without boundary wall, 93% are without water, 48% are without toilets and 88% are without electricity. The situation is not good even in boy's schools beyond primary level. The non-availability of these basic amenities will need urgent attention from district authorities to generate demand and coordinate with the province for provision of missing facilities in all schools.

4.2.3 Poverty

Despite provision of free textbooks and abolition of school fee by Government of Balochistan, poverty continues to hamper the efforts of providing education to all children. The district has its share of poverty and often parents have to pull children out of school due to the increased opportunity costs and issues of low expectations. Moreover it appears that other expenses like transportation costs, uniform and stationary also creates hindrance for parents to send their children to school. The district authorities, within their limitations, will need to reduce these economic barriers to school entry and continuation.

4.2.4 Parent's Illiteracy

Societal attitude towards education is the most crucial factor and parent involvement and their perception of educational outcomes is a key for enhancing access to education. Parents' involvement is also a pathway through which schools enhance the achievement of underperforming students. Their illiteracy also impacts attitudes towards education of both boys and girls. Being the key stakeholders it is imperative to keep them involved in the process.

4.2.5 Alternate Learning Pathways

The district does not have any direct role in targeting out of school children through non-formal education or alternate learning pathways to prepare out of school children for return to regular institutions on a fast track basis. The main intervention in the area is carried out by the provincial Balochistan Education Foundation (BEF) and the federal National Education Foundation (NEF). The BEF supports community and private schools through a 'public private partnership' process.

At present BEF operates 11 numbers of schools in the district with the assistance of the private sector.

Article 25-A and subsequently the Balochistan Compulsory Education Act 2014 reveals provision of education to all children of age group 5-16. The objective is only possible to be

achieved by initiating meaningful alternate learning pathways in the district but unfortunately the mandate of ALP presently lies with social welfare department. The district, therefore has no direct role in this area but the identification of out of school children in the district and a roadmap for targeting these children through alternate learning pathways or non-formal education will be helpful in streamlining the provincial and federal ALP programmes.

4.3 Objectives and Strategies

Following are the key objectives set out for district Mustung to improve the education access and equity. Within the limitations of the district, strategies have been identified for each objectives.

4.3.1 Objective: Provision of education opportunities to every settlement of the district Target:

Establishment of 100 new primary schools as per government policy

Strategies:

- i. Develop a criterion for selection of site for opening of primary schools
- ii. Identify locations without primary schools through EFOs.
- iii. Prepare phase wise implementation plan in collaboration with education department
- iv. Recruit local teachers as per government policy by December every year starting from 2017.

4.3.2 Objective: Remove school availability gaps at primary to middle, middle to secondary and secondary to higher secondary level

Target:

Up-gradation of 20 primary schools to middle level

Strategies:

- i. Develop a criterion and prioritize selection of primary school for up-gradation
- ii. Prepare an up-gradation plan in consultation with DOS.
- iii. Implement the plan in phases by December every year starting from 2016.
- iv. Preparation of SNE and submit to DOS.
- v. Recruitment of Teachers by December every year starting from 2017.

Target:

Up-gradation of 5 middle schools to secondary level

Strategies:

- i. Develop a criterion and prioritize selection of middle school for up-gradation
- ii. Preparation an up-gradation plan in consultation with DOS.
- iii. Preparation of SNE and submit to DOS.
- iv. Recruitment of Teachers by December every year starting from 2017.

Target:

Up-gradation of 2 high schools to higher secondary level

Strategies:

- i. Develop a criterion and prioritize selection of middle school for up-gradation.
- ii. Preparation an up-gradation plan in consultation with DOS.
- iii. Preparation of SNE and submit to DOS.
- iv. Deployment of Teachers by December every year starting from 2017.

v. Provision of books and learning material consumable to existing libraries.

4.3.3 Objective: Optimum utilization/ Rationalization of existing schools

Target:

Rationalize teacher's deployment in schools to ensure optimum utilization.

Strategies:

- i. Conduct survey of teacher deployed in schools.
- ii. Develop a strategy for rationalization.

Launch awareness campaign in the district with underutilized institutions.

- i. Prepare plan for awareness campaign in consultation with local PTSMCs.
- ii. Implement plan of awareness campaign with assistance of PTSMCs.

4.3.4 Objective: Increase number of classrooms up to 5 rooms in primary schools (where required)

Target:

Up-gradation of 15% of 2 room and 10% of one room primary schools to 5 rooms schools (where required)

Strategies:

- i. Prepare plan for construction of additional rooms in 23 primary schools having 2 rooms and 7 schools having 1 room, as government policy (phase wise).
- ii. Submit the Plan to DOS for approval.
- iii. Implement plan as per approval.

4.3.5 Objective: Reduce economic and social barriers to school entry and continuation

Target:

Provision of one school meal to the students in all schools (phase wise).

Strategies:

- i. Prepare school meal plan and submit to education department
- ii. Implement the plan as approved

Target:

Provision of stationery to the students in all schools.

Strategies:

- i. Prepare plan and submit to education department
- ii. Implement the plan as approved

Target:

Provision of transport facility to the students

Strategies:

- i. Identify schools for the Provision of transport
- ii. Prepare plan for provision transport to the students and submit to DOS
- iii. Implement the plan as approved by the government

iv. Conduct monitoring and evaluation of the plan

Target:

Awareness campaign on enhancement of girls' education

Strategies:

- i. Prepare plan to launch awareness campaign in the district
- ii. Implement the awareness campaign
- iii. Develop a feedback mechanism

4.3.6 Objective: Provision of ALP opportunities to out of school children

Target

Obtain data on out of school children of school going age.

Strategies:

i. Obtain data of out of school children from available sources

Target

Establishment of 136 ALP centres (phase wise).

Strategies:

- i. Prepare a plan to establish ALP centers (phase wise).
- ii. Conduct awareness sessions with communities/PTSMCs.
- iii. Establish 120 NFE centres to provide access to 20% out of school adolescents

4.3.7 Objective: Create capacity to comprehend and implement inclusive education in schools

Target

Promote ownership of inclusive education among community, Education Field Officers (EFOs) teachers and head teachers

Strategies:

- i. Prepare plan for awareness.
- ii. Conduct seminars and workshops.
- iii. Conduct Monitoring and obtain Feedback from attendees of the awareness process.

Target

Develop Continuous Professional Development Programme for teachers on Inclusive Education

Strategies:

- i. Develop curriculum for training of teachers on inclusive education
- ii. Ensure inclusion of curriculum on inclusive education in CPD

Target

Ensure community and parental participation in inclusive education

Strategies:

i. Revisit ToRs of PTSMCs and suggest the education deptt to cover inclusive education in the ToRs.

- ii. Conduct Training for capacity building of PTSMCs in context of inclusive education.
- iii. Conduct monitoring and reporting.

4.3.8 Objective: Implementation inclusive education concepts in schools

Target

Carry out baseline study on Participation of excluded population in schools.

Strategies:

i. Terms of reference to provide facilities in schools.

Target

Training of EFOs in monitoring and mentoring of inclusive education adoption in schools.

Strategies:

- i. Conduct training on inclusive education for the teachers and field staff.
- ii. Conduct monitoring and feedback.

5 Disaster Risk Reduction

District Mustung is vulnerable to many manmade and natural disasters. Disasters like drought, floods, earthquakes and pests attacks are identified as key disaster hazards for Mastung by Provincial Disaster Management Agency.

Figure 5.1: Disaster Hazards

| Scoring Keys | | | | | | | | | | |
|--------------|---|---|---|--|---|---|--|--|--|--|
| 5=Very High | =Very High 4=High 3=Medium 2=Low 1=Very Low None | | | | | | | | | |
| | Vulnerability Level of Hazards | | | | | | | | | |
| Drought | Drought Floods Earthquake Locusts / Pests Transport Accidents | | | | | | | | | |
| 2 | 2 | į | 5 | | 1 | 1 | | | | |

Source: PDMA 2013

The district is also prone to the sabotage incidents and violence resulting into resulting into casualties. During 2002-07, the district faced 49 bomb blasts, 11 rocket fire incidents and 1 hand grenade attack in which 19 persons were killed and 27 persons were injured.

Sabotage Activities in District Mastung (2002 - 2007)

49

11

0 1

BOMB BLAST LAND-MINE HAND GRENADE ROCKET FIRE PERSONS Killed PERSONS Injured

Figure 5.2: Sabotage Activities in District Mastung

Source: PMDA 2013

Despite existing in a danger zone of floods and earthquakes and being a victim of sabotage activities, the district management has a very low number of contingency equipment, to respond to crisis situation (Table 5.1). There are only 5 ambulances, 2 fire brigade, 9 dozers, 1 grader, 5 tractors and 1 truck.

Table 5.1: Emergency Response Machinery and Equipment

| Contingence | Contingency Detail of Emergency Response Machinery and Equipment for Disaster Management | | | | | | | | | |
|-------------|---|---|---|---|---|---|---|---|--|--|
| Ambulances | Ambulances Fire Brigade Dozers Graders Vehicles Tractor Damper Loader Trucks Water Tanker | | | | | | | | | |
| 5 | 2 | 9 | 1 | - | 5 | - | 1 | - | | |

Source: PMDA 2013

Apart from the above issues most of the school buildings in district do not comply with the hazard resistance designs, constructions and have no response plan for natural disasters. Against the manmade disasters and sabotage activities there is lack of preparedness in schools in terms of evacuation plans, designated evacuation areas, and safety awareness.

5.1 Objectives and Strategies

At present the district education authorities do not have a policy on mitigation of any of the above situations. While some of the issues may be difficult for district managers to handle on their own there is a need for a policy and a plan.

5.1.1 Objective: Institutionalize a DRR plan for the institutions

Target

Prepare Plan for risk prevention, reduction, preparedness and school safety based on PDMA guidelines.

Strategies:

- i. Prepare a DRR plan in consultation with DEA, EFOs and head teachers.
- ii. Organize awareness sessions with students, head teachers, community and teachers.
- iii. Organize training for the teachers, head teachers and EFOs on DRR.
- iv. Provide necessary equipment to schools.
- v. Implement DRR Plan.

6 Quality and Relevance of Education

Quality of teaching learning process remains a key concern in Mustung district. Data from ASER 2014 reveals poor learning achievements at primary level. The low survival and transition rates further underline the poor quality. The latter owes to a number of factors. Some of these are in control of the district government while responsibility for others like curriculum, textbooks and even pre-service teacher education lies with the provincial government. This limits the capacity of the district to control the quality of education but this cannot be accepted as an excuse as much still remains in the hands of the district authorities. This chapter explains the context in which district government operates, its own limitations and gaps and strategies that can be employed by it to improve quality.

6.1 Situation

Quality education does not have a standard definition but cognitive development is central to all formulations that describe quality in education. Cognitive development is seen as the critical-analytical ability of the child. Balochistan Education Sector Plan (BESP) explains quality along the 'Bloom's Taxonomy' pyramid. This has been reproduced below.

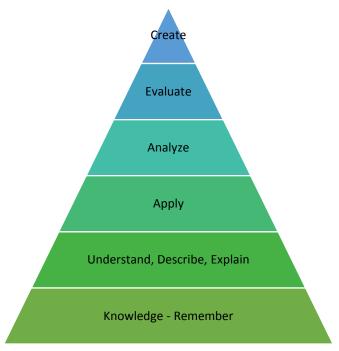

Figure 6.1: Bloom's Taxonomy (Revised – 1990)

BESP asserts that children, in the given teaching learning process, do not move beyond the lowest tier of knowledge. This means higher order thinking does not develop. Recently published data of the 'Annual Status of Education Report' (ASER), reveals very poor reading and numeracy skills in children. This shows a major teaching failure and an obvious consequence of rote learning.

Table 6.1: Learning Outcomes - ASER 2014 Findings

| ruble 0.1. Learning Outcomes - A3LN 2014 Finalitys | | | | | | | | | | |
|--|------------|---------------|--|------------|--------|-------|-----------------|--|--|--|
| Learning levels (Urdu) | | | | | | | | | | |
| % children of Class 3&5 who can read | | | | | | | | | | |
| Class | Nothing | Letter | Letters Words Sentences Story | | | | | | | |
| 3 | 9.6 | 10.3 | | 64 | 14 | 1 | 2.2 | | | |
| 5 | 1.9 | 7.4 | | 64.8 | 9. | 3 | 16.7 | | | |
| Learning levels (English) | | | | | | | | | | |
| % children of Class 3&5 who can read | | | | | | | | | | |
| Class | Nothing | Le Capital | etters Small | Wo | rds | 9 | Sentences | | | |
| 3 | 2.9 | 45.6 | 26.5 | 24 | .3 | 0.7 | | | | |
| 5 | 1.9 | 30.2 | 24.5 | 37 | 37.7 | | 5.7 | | | |
| | | Learnir | ng levels (| Arithmetic | c) | | | | | |
| | % | children | of Class | 3&5 who | can do | | | | | |
| Class | Nothing | recog | Number Subtractive Precognition Subtractive Precognition Digital Precognition Preco | | | Divis | sion (2 digits) | | | |
| | 5 0 | 0 - 9 | 10-99 | | | | | | | |
| 3 | 5.9 | 11.1 | 78.5 | 3 | | | 1.5 | | | |
| 5 | 0 | 1.9 | 72.2 | 24.: | 1 | | 1.9 | | | |

As can be seen in table 2.1 above, only 16.7 percent children of grade 5 can read a story in Urdu and 5.7 percent children can read sentence in English. In Arithmetic only 1.9 percent children can do 2 digit divisions and 74 percent can recognize numbers. These results cannot be blamed on the teacher alone. Other factors like the general policy on quality, choice of language of instruction, textbooks and examinations are all factors that lead to poor learning outcomes seen above.

6.2 District Limitations and Strengths

District officials have a number of limitations as per the structure of education, in ensuring quality of education. Among others, they do not control the quality of curriculum, textbooks and teacher training. The curriculum responsibility has shifted to the provincial government, from the Federal, after the 18th amendment. At present it lies with Bureau of Curriculum and

Extension Services (BOC &ES). The Balochistan Textbook Board prepares textbooks. Preservice teacher education is the responsibility of Government Colleges of Elementary Education (GCEs) and the private sector universities. In service teacher training is the responsibility of the Provincial Institute of Teacher Education (PITE).

Classroom teaching and learning remains the direct responsibility of the district tier as an extension of the Directorate of Schools (DOS). To undertake the task the district authorities have enough in the mandate and resources to make an impact. However, district authorities, in line with the general approach of the DOS, do not place quality on a priority. This needs to be changed. The following table shows the mandates of Federal, Provincial and District authorities in different areas of quality education:

Table 6.2: District, Provincial & Federal Mandates in Education Quality

| Areas | Federal | Province | Districts |
|--------------------------|---|--|--|
| Curriculum | No role after 18 th amendment but the extant curriculum was developed at federal level in 2006 | Has the mandate for development but has yet to acquire the capacity. Preparation and monitoring of curriculum implementation framework that includes dissemination through district support | Dissemination, Implementation Feedback? |
| Teachers | Higher Education Commission is responsible for standards of ADE and B.Ed. programmes in pre-service teacher education | Pre-Service Training: Province can develop its own standards as long as they exceed minimum standards prescribed by HEC Recruitment In-Service Training: Standards and implementation. | In-service Training: Assist PITE and BOC in implementation Recruitment Deployment Management |
| Textbooks | Federal Govt. has no formal role but National Textbooks Policy developed in 2007 provides the framework for textbook preparation. | Standards of Textbooks Development of Textbooks Distribution | ImplementationDistributionFeedback? |
| Summative Assessments | National Testing Service (NTS) assesses students who complete higher secondary for admissions to professional colleges. | Balochistan Board of Intermediate & Secondary Education conducts summative assessments at secondary & higher secondary levels | Provide invigilators for supervision of exams conducted by BBISE Conducts scholarship tests for grade 5 & 8 |

| | | Standards of examinations conducted by BISE | Feedback? |
|----------------------------|--|--|--|
| Formative Assessments | • No role | Standards of assessments? | Schools conduct formative assessments monthly and six monthly stages |
| Physical Infrastructure | • No role | StandardsProvision for BudgetImplementation | Sends missing facilities situation to the province. |
| Standards | No role Inter provincial education ministers forum is trying to get agreements from provinces on national standards. | Development of standards Monitoring of standards implementation | Implementation of standardsFeedback |
| ECE | • No role | • Policy | ImplementationFeedback |
| Language(s) | • No role | • Policy | ImplementationFeedback |

Table 2.2 above shows that district levels can influence quality in a number of areas. In some of the rows the word 'feedback' has been added with a question mark. This marks a gap which needs to be filled in. The space available to districts to improve quality is not constrained by the entry in the tables. There are many actions which they can initiate without impinging provincial, or federal mandate.

6.3 Overarching Factors for Poor Education

Poor quality of the teaching learning process demonstrated in the results above owes to a number of factors that are cross cutting across all districts. Poor quality of teaching remains at the center. Non-standardized teacher education is at the root of the poor learning processes in the classroom. The situation gets compounded by an unrealistic language policy, poor quality of textbooks and an examination system that tests memory and not analytical-critical ability. Some of the key problems that lie beyond district control are:

- 1. Poor Quality of Pre-Service Teacher Education
- 2. Textbooks Quality
- 3. In-Service Teacher Education
- 4. BISE's Summative Assessment
- 5. Accountability Model (Excludes Quality)

6.4 District Related Factors of Poor Quality

There are a number of gaps at the district level which, if addressed, can help reduce the quality deficit even as implications of centralized policies continue to impact the situation.

6.4.1 Ownership of Quality in Education

As mentioned the education field officers at the district level are more concerned with issues of access, buildings and administrative matters like transfers and postings. Quality of teaching and learning is considered a low priority- if at all. Generally textbook board, PITE and BOC are seen as responsible for quality. Products of these organizations are accepted passively by the district.

6.4.2 Capacity of Field Teams

The Learning Coordinators assigned the task of monitoring quality of education in the field have little or no capacity to undertake the task. These are normally selected from senior teachers who are nearing retirement. They have normally used the rote memory approach themselves and receive no training in monitoring quality in schools. They are further handicapped by a lack of resources to visit schools.

6.4.3 Accountability Model of Head Teachers

Head teachers are normally held accountable for absenteeism of teachers and coverage of syllabi. Learning of children is not considered except at the secondary level where the examinations conducted by the Board of Intermediate and Secondary Education become a test of quality. However, it remains an imperfect benchmark as head teachers cannot be held accountable for the terminal examination at the end of ten years of education alone. Much else needs to be built into the accountability model.

6.4.4 No Data Compilation and Feedback

There is no culture of data based monitoring and feedback. The district level assists in collection of data for BEMIS but rarely, if ever, uses the information. There is no culture of data collection beyond BEMIS requirements and absolutely no usage. Monitoring continues to be seen as a function of ability to visit schools and not a systemic approach of collecting and analyzing data. While this is relevant to quality improvement it has a broader mandate and has therefore been discussed in greater detail in the next chapter on 'Governance and Management'.

6.4.5 Curriculum Implementation and Feedback

Field research in the district shows that neither the district authorities nor teachers and head teachers have any idea of curriculum and its structure. Moreover teachers, head teachers and district officials do not provide any structured feedback to the provincial government on curriculum. While curriculum review and development is the responsibility of province, the district authorities can disseminate the curriculum and ensure that teacher and head teachers are aware of its objectives and contents.

6.4.6 Textbooks Distribution and Feedback

As already stated above textbooks continue to have quality issues that reduce the effectiveness of the teaching learning process. Textbooks taught in classrooms often do not cater to the learning requirements of the district, other problems in textbooks include difficulty of language and poor explanation of concepts. Like curriculum, textbooks development is the responsibility of province, district level responsibility includes distribution of textbooks since the government decided to provide free textbooks to all children. Visit to the district showed that there are problems in timely distribution of textbooks and the feedback mechanism on textbooks to the province is missing. The district needs to come up with a plan to ensure timely distribution of textbooks to all schools and students in coordination with the province and to make arrangements like maintenance of book banks to cope with delays in distribution and shortages of textbooks. Apart from distribution mechanism, the district also needs to streamline demand for quality textbooks by instituting a feedback system from teachers, head teachers and students.

6.4.7 Professional Development

Enhancing the knowledge and skills of teachers and head teachers is an essential element in the efforts to improve quality of education. Teacher's professional development is directly linked to the educational outcomes and this should clearly be a demand from the district level. Conversely the teacher training is undertaken as supply side initiative wherein PITE and BOC develop training programmes based on donor funding. Lately the Government of Balochistan has started providing budgets for trainings but even these are being spent on programmes designed by the supply side organizations. District only select teachers for these trainings but even here teachers associations control the actual selection process. District also does not update PITE database which stalls any follow up monitoring of teachers.

6.4.8 Teachers Availability

Teachers' availability in the district needs attention as the shortages of teachers in particular subjects contributes to poor learning outcomes. The district needs to evaluate shortages according to the needs and develop demands projections. This will entail coordination with the province for increase in sanctioned posts and to fill the existing gaps in teacher availability. Partly, teachers' availability issue can also be resolved by redeploying the available teachers to schools where they are needed. This can be done by developing teachers' redeployment plan on the basis of evaluation of shortages and existing deployment of teachers. Absenteeism is another issue which needs the attention of district authorities. The current approach to inspection and monitoring requires review and should include ICT approaches to reduce absenteeism of teachers and also to ensure the quality of teaching which will entail development of quality focused inspection and monitoring tools.

6.4.9 Assessments

Traditionally schools would regularly conduct formative assessments in the form of monthly tests. The practice has been discontinued in most schools except where an effective head teacher enforces it. Additionally the formative assessments, where conducted, lack standards and induce rote learning in the classrooms. Exams are based solely on the textbooks as the teachers and head teachers are not trained in developing assessment tools and they lack knowledge about the curriculum. Cheating in public examinations has been identified as another issue during the field research in district which deprave the assessment system. Moreover there is no database of formative and summative assessments being conducted in schools which can used by district education authorities for analysis and providing feedback to schools for improvements.

6.4.10 Early Childhood Education (ECE)

Early Childhood Education (ECE) is considered essential to long-term cognitive development and it functions as the basis for a quality education. ECE requires awareness of parents, head teachers and teachers alike. Field visits to the district showed that it is a neglected area and concepts of ECE are not understood. Most education managers and decision makers are not aware of the importance of ECE and therefore it lacks focus. The district also lacks teaching and non-teaching staff for ECE.

6.4.11 Availability and Use of Libraries & Laboratories

There are only limited number of libraries in the district. Selection of books is also a problem as neither head teachers nor teachers have any interest and training in selection of books for

libraries. Availability of science and computer laboratories is also limited moreover district education managers do not take interest in the maintenance and operationability of libraries and laboratories which further hampers their usage as these limited facilities lack books and materials. The functionality of laboratories depend on replenishment of consumables, the district authorities needs to plan and ensure provision of a minimum budget for replenishment of laboratories and up gradation of libraries.

6.4.12 School Environment

Schools, as a learning institutions must have conducive environment for education. Most schools in the district do not provide the required environment. The most crucial factors which came up during the field research are coercion culture with corporal punishment, erosion of co-curricular activities from school programmes, unfriendly school construction and missing facilities. The coercion culture in the schools discourages questions and hamper the ability of child to learn in a friendly environment and also leads to dropouts. The co-curricular activities including sports, speech competitions, and skits are nonexistent in the schools. The district needs to ensure that head teachers plan co-curricular activities in all schools and education managers monitor these activities.

6.5 Objectives and Strategies

Following are the key objectives set out for district Mastung to improve the quality of education in all schools. Within the limitations of the district strategies have been identified for each objectives.

6.5.1 Objective: Dissemination of Curriculum to all key stakeholders in the district

Target

Development of dissemination plan in collaboration with BOC &S.

Strategies:

- i. Team set up for preparation of dissemination plan.
- ii. Approval of plan by the DEA.
- iii. Awareness workshops at clusters level for all educational levels and EFOs.
- iv. Follow up of curriculum dissemination.

6.5.2 Objective: Timely receipt of textbooks by students

Target

Development of textbooks distribution plan including costing of transportation

Strategies:

i. Develop Textbook Distribution Calendar.

Target

Implementation of Textbooks distribution plan

Strategies:

i. Distribution of textbooks as per calendar.

Target

Establishment of Book bank at school level

Strategies:

- i. Provision of space/furniture (Almirah) by head teacher.
- ii. Awareness to teachers and students.
- iii. Formation of committee at school level for preparation of procedures.
- iv. Monitoring by Head teachers and EFOs

Target:

Establishment of monitoring, Complaint and redressing mechanism for timely supply of textbooks to the children

- i. Develop a monitoring mechanism involving EFOs and respective head teachers to ensure timely supply of textbook to the students.
- ii. Establish Complaint and redressing mechanism at school and , DEO level

6.5.3 Objective: Contribute to improvement of quality of textbooks.

Target:

Development of mechanism for annual collection of feedback on textbooks

Strategies:

i. Develop mechanism for annual feedback collection on textbooks

6.5.4 Objective: Continuous professional development of teachers and head teachers

Target:

Carry out a needs assessment for professional development of teachers and head teachers

Strategies:

i. Need assessment of teachers and head teachers on sampling basis

Target:

Arrangement of District level trainings for teachers and head teachers in coordination with DOS and PITE.

Strategies:

- i. Training of master trainer through PITE
- ii. Training of teachers and head teachers by adopting cluster approach by December

Target:

Development of District data base of trainings to ensure monitoring and avoid reappearances of teachers in trainings

Strategies:

i. Develop the Database of trained teachers at district level by DEMIS

6.5.5 Objective: Ensure teacher availability in all Subjects for all schools

Target:

Identification of Subject wise Shortage of teachers

Strategies:

i. Identify subject wise shortage of teachers

Target:

Redeployment plan of teachers on the basis of rationalization

Strategies

- i. Develop a Policy for rationalization of teachers redeployment
- ii. Approval by DEA
- iii. Prepare rationalization plan of teachers deployment
- iv. Approval by the DEA sought
- v. Implementation of plan

6.5.6 Objective: Elimination of Teacher absenteeism

Target:

Development of ICT approaches to reduce teachers absenteeism

Strategies

i. Monitoring of ICT Implementation of inspection function as given in capacity

Target:

operationalize Strong inspection function

Strategies

- i. Develop Inspection plan
- ii. Implement the inspection plan

Target:

Recruitment of replacement teacher to fill in for teachers on official leave (as and when required)

Strategies

- i. Establish a pool of unemployed graduates at local level for hiring as replacement teacher
- ii. Develop a strategy for recruitment of replacement teachers

6.5.7 Objective: Ensure an effective and regular formative and summative assessment in all schools

Target:

Training of all teachers and head teachers in formative and summative based assessment Strategies

- i. Prepare a plan for teachers, head teachers, EFOs to participate in the training on assessment conducted by PITE
- ii. Implement the training plan
- iii. Follow up of the trainings
- iv. Review the inspection Performa to include assessment indicator

Target:

Ensure that all the schools conduct formative and summative assessments

Strategies

i. Preparation of monitoring mechanism

Target:

Formative and summative assessments

Strategies

i. Implementation of monitoring plan

Target:

Prepare database of formative and Summative assessments in coordination with all schools Strategies

i. Establish database of formative and summative assessments in coordination with DEMIS

Target:

Analysis data of formative & summative assessments and provide feedback to schools.

Strategies

- i. Training of EFOs and head teachers in analysis of assessment data
- ii. Analysis of assessment result by DEO and head teachers
- iii. Submit the result to DOS

Target:

Ensure curriculum based summative assessment of class V and VIII

Strategies

i. Training to all paper setters of class V and VIII in curriculum based summative assessments.

Target:

Develop and implement vigilance and monitoring system to control cheating in exams conducted by districts

Strategies

- i. Develop Vigilance & monitoring system
- ii. Implement Vigilance & monitoring system in all district level exams

Target:

Create political and social support to control cheating

Strategies

- i. Prepare a plan to obtain political and social support for control of cheating
- ii. Launch advocacy and awareness campaign for control of cheating in the institutions.
- iii. Mobilize the community against cheating through electronic and print media

6.5.8 Objective: Ensuring conducive learning environment in all schools

Target:

Prepare School development plan for all schools

Strategies

- i. Conduct training for DEO and head teachers for preparation of school development plan
- ii. Preparation of school development plan by head teacher as per standard format
- iii. submit the plan to DEA

Target:

Provision of additional classrooms in overcrowded schools

Strategies

- i. Mapping of school population and physical facilities through PTSMCs
- ii. Prepare PC-1 For additional classroom in overcrowded schools
- iii. Submit PC-1 for approval

Target:

Provision of Non salary needs for recurring budget

Strategies

- i. Prepare non salary needs of the district on the demand of head teachers for allocation in recurring budget
- ii. Submit the recurring budget of the district for inclusion in the annual recurring budget

Target:

Provision of all required physical facilities in the schools and replenishment of consumable facilities

Strategies

- i. Prepare list of physical facilities required in schools
- ii. Prepare a scheme along with estimated cost of the items included in the list
- iii. Submit the scheme along with the cost to the DOS

Target:

Improve learning environment and mentoring practices/approaches in all schools Strategies

i. Provide Training in techniques of mentoring/peers approach to the teachers.

Target:

Introduce an effective and collaborative management practices among teachers and head teachers in all schools

Strategies

i. Conduct regular meetings of staff and head teachers in all schools

Target:

Provision of budget for curricular and co curricular activities to schools

Strategies

- i. Prepare budget for co curricular activities
- ii. Submit the budget to DOS for inclusion in the SNE

Target:

Conduct co curricular activities in schools on regular basis

Strategies

- Conduct awareness sessions for the teachers and head teachers about the importance of co curricular activities
- ii. Prepare calendar of co curricular activities in the school and submit to the DEO
- iii. Establish school clubs to ensure co curricular activities in the schools on perpetual basis
- iv. Conduct teachers training for counseling and guidance at cluster level
- v. Conduct follow up of the impact of training at school level

Target:

Prepare and conduct awareness campaign against corporal punishment

- i. Plan awareness against corporal punishment
- ii. Conduct awareness sessions with teachers, students, PTSMCs and parents for eradication of corporal punishment

iii. Teacher training in alternate disciplinary measures

Target:

Ensure eradication of corporal punishment from schools

Strategies

i. Monitoring to follow the instructions of the government for eradication of corporal punishment

6.5.9 Objective: Counseling for students of middle to higher secondary schools for better career choices

Target:

Develop counseling units at district level

Strategies

i. Develop Counseling units at district level

Target:

Training of head teachers in counseling

Strategies

Conduct training of head teachers

6.5.10 Objective Ensure availability of functional Libraries and Laboratories in all schools

Target:

Ensure existing school libraries are functional and establish new libraries in schools

Strategies

- i. Establish new libraries in schools and improve functionality of existing libraries
- ii. Prepare a plan to establish new libraries in schools
- iii. Prepare PC1 to establish new libraries in the schools and submit to DOS
- iv. Prepare time table for the students and teachers to attend library on regular basis

Target:

Ensure that laboratories in existing schools are functional

- i. Conduct survey to assess current functionality of laboratories in middle and high schools and prepare a list of equipment for underutilized laboratories
- ii. Develop a plan for enhanced functionality and usage
- iii. Prepare proposal for establishing and equipping laboratories in middle and high schools (where needed
- iv. Prepare SNE for creation of the post of laboratory assistants (where required) and recurring budget for maintenance
- v. Submit the proposal and SNE to the DOS

6.5.11 Objective: Introduce Early Childhood Education in the district

Target

Stakeholders aware of ECE Policy

Strategies

- i. Develop a mechanism to monitor implementation of ECE in public and private schools
- ii. Develop awareness raising program of ECE
- iii. Organize awareness session on ECE with DEA, DEG, EFOs, teachers, head teachers and PTSMCs

Target

Introduce ECE in 110 (30%) primary schools

Strategies

- i. Finalize criteria for selection of schools including the schools with available classrooms and not available classrooms
- ii. Identification 110 (30%) primary schools with existing/available classrooms and for construction of new classes (60% boys & 40% girls) for introduction of ECE
- iii. Prepared and submitted PC1to DOS
- iv. Monitor the Construction of ECE classrooms

Target

All new schools to have ECE set ups

Strategies

i. Preparation of policy in coordination with Province

Target

Recruitment of 68 teachers and other staff

Strategies

- i. Prepare SNE for the creation of the posts of teachers and non teaching staff and submit to DOS
- ii. Completing the Recruitment process of 68 teachers phase wise
- iii. Required teachers deployed

Target

Training of teachers on ECE concepts organized

Strategies

- i. Finalization of ECE training program in coordination with PITE and DOS
- ii. Nomination of teachers for the ECE training
- iii. Organize cluster based ECE teacher training program in collaboration with PITE and DOS.
- iv. Training of LCs/ADEOs on ECE concepts

Target

Ensure community and parental participation in ECE

Strategies

- i. Nomination of resource persons and submission of list to PITE
- ii. Preparation of Training plan
- iii. Impart training to PTSMCs

6.5.12 Objective: School health and nutrition services for ECE children

Target

Health awareness of parents, teachers and students

Strategies

- i. Formulate committee including membership from Education, Health and social welfare department at district level I by Mar 2017
- ii. Finalization of ToR of the committee

Target

Development of student health profile

Strategies

- i. Draft agreement for provision of basic health services to ECE children
- ii. Conduct immunization, polio, de-worming drives, hand washing and hygiene campaigns in ECE schools.

6.5.13 Objective: ECE support and monitoring

Target

Training of EFOs in monitoring and mentoring of ECE teachers.

Strategies

i. Mentoring and monitoring plans initiated

7 Governance and Management

Mustung follows the standard model structure followed in all districts. Governance and management in the district also faces, mostly, typical challenges of teacher absenteeism, influence of teachers association, weak monitoring and others. This chapter discusses these administrative challenges which include financial resource availability and autonomy.

7.1 Situation

District education set ups have gone through a number of changes over the last 15 years. In 2002 education, as a subject, was devolved to the districts and then reverted in 2009 when the devolution law of 2002 was replaced with the new local government act of the government of Balochistan.

Provincial level control has in the past, often, led to centralization of routine operational decisions like transfers and postings and financial expenditure. Recently the provincial education secretariat has made some critical changes to delegate operations decisions to the district level and below.

Three bodies have emerged at the district level to help improve management:

- i. District Education Group
- ii. District Education Authority
- iii. School Clusters

District Education Group was notified in September 2013 as part of the implementation framework of the Balochistan Education Sector Plan (BESP). DEG is headed by the District Education Officer who acts as the chairman. The composition is as follows:

Table 7.1: District Education Group Composition

| Chairman | District Education Officer |
|-----------|---|
| Secretary | District Officer Education(Male) |
| Members | District Officer Education (Female) Representative of Deputy Commissioner Principal Govt. Degree College (Boys) Principal Govt. Degree College (Girls) Principal Elementary College Representative from Local NGO Social Welfare Officer District Health Officer (Health Dept) District Account Officer/ Treasury Representative from Teacher's Union Representative from Civil Society (2) |

DEG has the following responsibilities:

- 1. To promote educational awareness at district level.
- 2. To plan, coordinate and support in increasing enrolment and relation at district level.
- 3. To monitor absenteeism of officers, officials and teachers.
- 4. To monitor and ensure proper functioning of educational institutions at district level.
- 5. To discuss and resolve grievances of teachers and employees at district level.
- 6. To discuss and resolve grievances of public regarding educational affairs.
- 7. To mobilize community and encourage their participation in educational matters.
- 8. To support and ensure proper implementation of Balochistan Education Sector Plan.

District Education Authority was notified in February 2014 with the objective of providing support to the District Education Officer in difficult decisions with potential political ramifications. Composition of DEA is as follows:

Table 7.2: District Education Authority Composition

| Chairman | District Education Officer | | |
|----------|---|--|--|
| Members | The Deputy Commissioner or his Representative District Account Officer/ Treasury or his representative District Officer Education(Female) District Officer Education(Male) The deputy District Officers (Female and male) with regard to issues to their respective jurisdiction The Head Master Mistress with regard to issues related to the school teachers/staff of their respective schools Female/ Male Education Coordinators with respect to issues of teachers posted in their respective jurisdiction | | |

Terms of reference of DEA have not been notified officially. Practically DEA has been involved in decisions of long leave of teachers (e.g. study leave) or out of country leave. DEA has also been involved in decisions on transfers and postings.

School Based Clusters: as part of delegation of powers clusters have been formed at school level. A high school functions as the central point (or head) of the cluster which caters to all primary and middle schools in a nearby range. Head teacher of the High School functions as the head of the cluster. The cluster has a number of uses. Firstly a number of financial powers for procurement have been delegated to these clusters. Secondly these clusters are expected to be at the center of the continuous professional development programme developed by Department of Education and Provincial Institute of Teacher Education.

7.1.1 General Structure

The governance structure of education in the province is divided into the secretariat and the Directorate. The former, headed by a Secretary, has the role of overall supervision and policy making. The Directorate of Schools functions as the main technical unit responsible for education service delivery. The Directorate has three functional tiers: the provincial headquarters, Divisional Directorates and the district education offices, as shown in the diagram below:

Provincial

Divisional

Divisional

Divisional

Divisional

Divisional

Directorate

Divisional

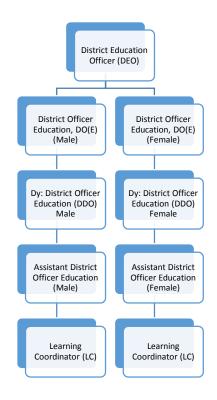

Directorate

Divisional

Directorate

Figure 7.1: Functional Tiers of the Directorate

The traditional structure at the district level consists of a District Education Officer (DEO) who heads the district education system. The DEO is supported by a number of officers including separated officers for male and female schools management. The DEO and his or her team has the task of management of schools in the district in an efficient and effective manner.

7.2 District Mandate

The district unit directly controls schools and teachers, and consequently, has the mandate of quality service delivery to students. Simply stated, it has the responsibility to ensure delivery of education on ground as per requirements of Article 25 A of the Constitution and the consequent legislation on compulsory education. This means the district unit has to provide free quality education for all children in the district. Under the Compulsory Education Act 2014 definition of free education includes meals, transportation and textbooks. In the current state the district offices do not have the capacity to deliver on all three. Additionally the units are not only require to manage government schools but also regulate the private ones.

7.2.1 Key Problems

The generally low performance of the education sector, as seen in the earlier chapter on access shows that problems exist in the governance structure. These are mostly typical issues, endemically found in most districts.

7.2.1.1 Capacity Gaps

District officials are selected from among the teachers and there is no established system to train DEO and his team. This limits the ability to effectively administer the authority. Like all districts DEOs are selected from amongst teachers which means that experience of management is lacking. No system of training at induction exists. Also there is no separate cadre for managers which makes DEOs 'vulnerable' to reversion to teaching. As DEO positions are seen as more prestigious, by many, this vulnerability reduces the confidence of the DEO. The better DEOs in the system have arrived by default and not any structured design.

7.2.1.2 Monitoring Model

A data, or information, based monitoring model does not exist in the district. Monitoring is seen as a function of visits to schools only. Systemic data collection and use does not exist. As already mentioned in the chapter on quality district units simply assist the provincial EMIS in provision of data they do not use the information themselves. A lot of information lying (or generated) at the district level remains unutilized in the absence of a systematic collection and placing into a data base. With reliance on school visits only the DEO and his staff complain of lack of resources. While the latter may be true to an extent the bigger problem lies in the model.

Even in case of visits to schools a structured proforma has not been developed to evaluate schools and also no system exists of collating school reports into a database. Resultantly,

mostly, no follow up takes place. Only where individual DEO takes interest some follow up is undertaken. Resultantly school improvement does not take place. Learning coordinators assigned the task of school visits form the weakest link in the structure. They are normally teachers nearing retirement who have neither the training nor the will to undertake the task of school visits.

Similar problems exist with head teachers who are normally not trained in their job. Exceptional cases can be seen where they are able to get some improvements in motion. But in the absence of training the ability to improve schools remains limited. Politicization and role of teachers' associations also impacts the capacity.

7.2.1.3 Teachers Associations

Teachers associations have become very powerful over the years. These associations have the ability to influence decisions of the DEO and hence hamper effective management. Decisions on transfers and postings and disciplinary proceedings are resisted by the associations. This makes it difficult for the management to hold teachers accountable. The associations now also actively influence to decisions by the BISE to select invigilators and superintendents to conduct the examinations held by it. The motive to influence is driven, mostly, by the lucrative options available due to endemic cheating in examinations.

7.3 Financial Situation

Figure 7.2 below shows that there has been a general upward trend in the recurrent budget for Mastung. Figure 7.3 further below shows the increase in budget, as a percentage of the previous year's budget.

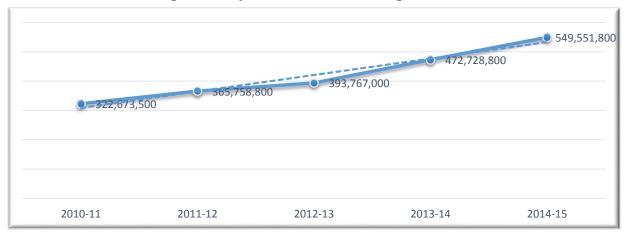

Figure 7.2: 5 years Total Recurrent Budget Trend

The increase between 2010-11 and 2011-12 was 13%. The budget increased only 8% the next year and it peaked in 2013-14 at 20%. In 2014-15 the increase over previous year's budget has been 16%. This shows massive jumps in the budget. Above fig shows that year wise releases are fluctuating while it should be increased gradually like straight line drawn along with the graph.

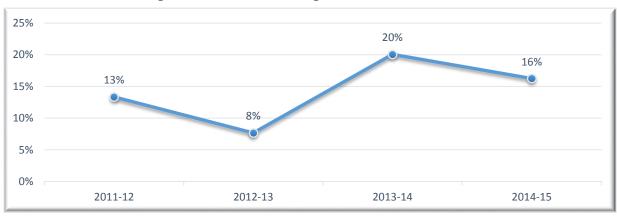

Figure 7.3: Increases in Budgets 2011-12 to 2014-15

Unfortunately, as seen in figure 7.4 below the major increase has not resulted from a deliberate attempt at improvement of school quality but salary increases. The figure shows that as compared to 2010-11 salaries of primary school teachers have increased by 53%, those of middle schools by 83% and the high school teachers have enjoyed a salary increase of 132% over the last 5 years.

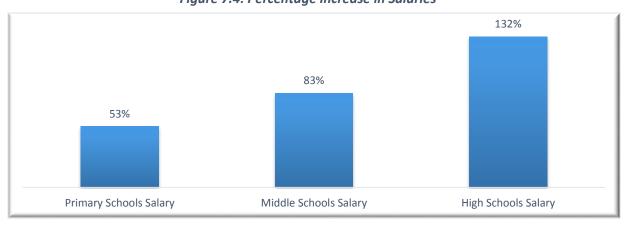

Figure 7.4: Percentage Increase in Salaries

The trend for middle and high school teachers overtakes the inflationary impact over these years. This has resulted from the policy of automatic move over to the new salary scale on completion of minimum time period. This has not only made evaluation for promotions a

meaningless exercise but also continues to place unsustainable pressure on the education budgets.

Figure 7.5 shows budget share for each level; Primary, middle and secondary. Primary and High schools absorb 38% of the budget respectively and middle 24 percent.

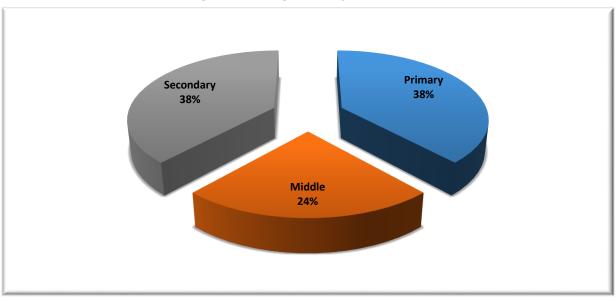

Figure 7.5: Budget Share for 2014-15

Figure 7.6 shows the trend for non-salary which is declining. This again reveals the pressure placed by the 'time scale' approach on overall budgets. Declining non salary budget reduces the ability of districts, head teachers and teachers to facilitate learning. In case of high schools where functional laboratories are a pre-requisite to learning of science this can completely derail the process.

Figure 7.6: 4 Years High Schools Non Salary Budget Trend

The per child expenditure for Mustung comes out to Rs.17,806 which is above the average per child expenditure in Balochistan.

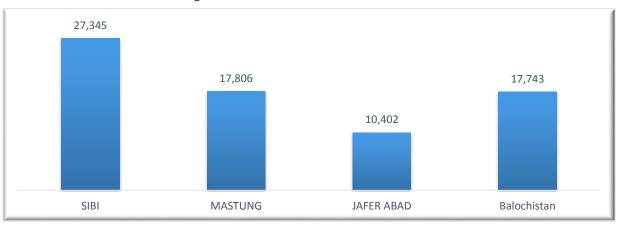

Figure 7.7: Total Per Child Cost 2014-15

Given the budgetary allocations and the fact that a number of high schools also have middle and primary sections it has not been possible to calculate per child expenditure at each level exactly. The graphs below show an approximate picture.

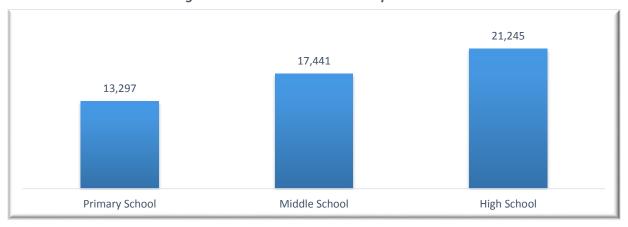

Figure 7.8: Level Wise Per Child Expenditure

Table 7.3 Learning Outcomes

| ASER 2015-Findings (Summary)-% Children | | | | | | |
|---|-------------------------------------|-------------|------------|-------------|-------------|--|
| | Class 3 | | | Class 5 | | |

| | | 0-9 | #10-99 | 2 digit | 2 digit | |
| | 0.0 | 1.9 | 72.2 | 24.1 | 1.9 | |

7.3.1 Financial Management

In general EFOs and head teachers never receive any formal training on financial management. This, often, leaves them hostage to the support staff who have more experience of accounting. Historically major procurements were centralized. With the recent delegation of powers, a number of procurements have been transferred to the cluster level. This should improve the pace of decision making but at the same time it will increase the risk of corruption and mismanagement. To counter the risk the Secretariat and, also district education officer, will have to develop strong internal controls. Without better internal audit mechanisms it will not be possible to have effective decentralization.

7.3.2 Private Sector Regulation

Mustung has a small private sector as, approximately, an enrolment of 10% of the total. However, the numbers are larger than the past and given the requirements of Article 25A the district units need to regulate quality of education in these schools. At present no regulation takes place on ground as it is a low priority for district authorities. Also they do not have the capacity to undertake the task. The statute governing private schools also needs to be revised

as the sector has grown much beyond the time of current law passed in 1961. Also the needs have shifted due to the compulsory education act.

District Authorities have to ensure that no child has to deviate from the free education required by statute. Again no model for public private partnership exists in the district to use this resource for betterment of students.

7.3.3 Multiple Supervisory Bodies

As already seen above there is overlap in the mandates of the District Education Group and the District Education Authority. As at present rules or terms of reference have not been developed for the latter there is a possibility of reducing this confusion and assign different areas to the two groups.

7.4 School Management Issues

Schools as self-contained units of education delivery have a number of problems. Again similar to other matters, discussed in the chapter on quality, the division across district and provincial mandates makes it difficult to have clear responsibilities for the school. Many schools simply lack basic facilities and have limited, if any, powers to impact the situation. A number of primary schools have single or two teachers, with no head teacher. In other cases head teachers have little training and even where they want to be effective teachers, often, have more powers through political connections and support of the associations. Despite these limitations, which are not universal, schools can be made better places of learning. The main hurdles to improvement are:

- i. Head teachers have no training for the job. Mostly senior most teachers fill these positions without any training. Recently though the provincial government has hired qualified young people for the job and has also trained them. Again the number of such head teachers is limited. In case of head teachers from high schools the responsibilities will increase as they will now also be heads of clusters. Their responsibilities will include financial management of the cluster schools and also facilitating the continuous professional development programme.
- ii. Secondly there is a massive planning deficit at the school level. The main target is completion of syllabi. There are no plans to improve the learning process and managing day to day affairs of the school.
- iii. Community, which can act as an important support to schools, remains weakly engaged. The Parent Teacher School Management Committees (PTSMCs) mostly remain inactive. There are a number of reasons for the lack of effectiveness of PTSMCs. An important reason being the inability of head teachers to mobilize community effectively.

7.5 Objectives and Strategies

The district government needs to take charge of education in a pro-active approach rather than function as passive recipients of initiatives taken at the central levels.

Some of the key strategies in this regard are:

7.5.1 Objective: Capacitate the district to function effectively in the newly decentralised framework

Target

DEA and DEG capacitated to function effectively.

Strategies

i. Conduct orientation sessions for DEA and DEG

Target

Function of District Education Offices made as an effective secretariats to DEA and DEG

Strategies

i. Develop capacity of EFOs on functioning as secretariat to DEG and DEA

Target

Functionality of clusters made effective

Strategies

i. Capacity building of the cluster members

Target

Drawing and Disbursing Officers trained at the Cluster Level

Strategies

i. Conduct training of DDOs at cluster level

7.5.2 Objective: Multi-stakeholder involvement in improvement of education in the district

Target

Teachers' Association formally engaged in implementation of District Plan

- i. Ensure active participation of teacher association in DEG meeting
- ii. Review mandate of teachers' associations in a consultative process
- iii. Organize training program for teacher association to build capacity

Target

Existing PTSMCs revitalized as per agreed framework.

Strategies

- i. Operationalize existing PTSMCs
- ii. Impart training as per TORs contained in Balochistan compulsory Education Act 2014

Target

Form and strengthen 366 PTSMCs on the basis of the framework.

Strategies

- i. Formation of remaining PTSMCs
- ii. Impart training as per TORs contained in Balochistan compulsory Education Act 2014

Target

PTSMC Monitoring mechanism in place.

Strategies

i. Monitoring of PTSMCs on developed tools

7.5.3 Objective: Overall capacity development of District Education Offices

Target

Implementation of recommendations of Capacity Development Plans developed in 2014

Strategies

i. Implementation of Capacity Development Plans developed in 2014

Target

Building the capacity of managers.

Strategies

- i. Develop training modules in accordance with JDs
- ii. Impart training to all EFOs

7.5.4 Objective: Effective Planning and Management at District level by using data

Target

Training imparted on use of data in Planning and Management.

- i. Prepare Training plan
- ii. Impart training on data use

7.5.5 Objective: Strengthening DEMIS to provide comprehensive qualitative data with analysis as per user needs

Target

Availability of data of all institutions ensured with DEMIS.

Strategies

- i. Set quality and quantity indicators through consultative process
- ii. Training on collection of data on the basis of set indicators
- iii. Analyze the data for decision making
- iv. Collating feedback to improve data quality

7.5.6 Objective: Effective monitoring and evaluation of district education development plans by District Education Officers

Target

District education offices effectively using the indicators given in District Education development Plan

Strategies

- i. Develop all four levels of monitoring and evaluation including the input, process, output and outcome level indicators.
- ii. Develop feedback mechanism.
- iii. Review structure approved by the Education Department and convey to the DEA.

7.5.7 Objective: More efficient Financial Management at the district level

Target

Optimum utilization of all available funds ensured by district DDOs and check and balance mechanism in place through DEA

Strategies

- i. Conduct training for DDOs on PIFRA Rules.
- ii. Develop Check and balance mechanis

Target

Allocation and expenditure of finances made transparent

- i. Training of relevant staff
- ii. Monthly updating the website

7.5.8 Objective: Effective School Management

Target

Head teachers trained in school management

Strategies

- i. Impart training to Master Trainers (MT) through PITE.
- ii. Impart training to head teachers with DEDP and School development plan.

Target

School based planning and budgeting ensured

Strategies

- i. Prepare school development plan and update annually
- ii. Submit the plan to DEO for approval
- 7.5.9 Objective: Establishment of Linkages with madrassas and private schools

Target

Policy of linkages with madrassas communicated by the province implemented

Strategies

i. Implement the policy framework in letter and spirit

7.5.10 Objective: Introducing Gender balanced management approach in district management

Target

Gender awareness campaign introduced.

Strategies

- i. Develop a gender awareness campaign to sensitize the communities including teachers
- ii. Capacity building of females on gender awareness

Target

Special facilities provided to female workers in offices.

Strategies

- i. Assess Needs
- ii. Plan and submit proposals to the department

Target

Day care centres established for female officials.

- i. Assess Needs
- ii. Plan and submit proposals to the department
- iii. Provide ffacilities in day care centres
